positive regulation of defense response
cytokine−mediated signaling pathway
response to virus
regulation of inflammatory response
response to molecule of bacterial origin
defense response to virus
response to lipopolysaccharide
cellular response to molecule of bacterial origin
cellular response to lipopolysaccharide
positive regulation of inflammatory response
BP
focal adhesion
ribosome
ribosomal subunit
outer membrane
organelle outer membrane
cytosolic ribosome
large ribosomal subunit
cytosolic large ribosomal subunit
small ribosomal subunit
cytosolic small ribosomal subunit
CC
signaling receptor regulator activity
signaling receptor activator activity
receptor ligand activity
cytokine receptor binding
structural constituent of ribosome
cytokine activity
chemokine receptor binding
chemokine activity
pattern recognition receptor activity
CCR chemokine receptor binding
